

Buttermilk's She is much better in love
to Nellie,
and a bill for the children's medicine (Dr. Smith)
March 6. / 30

My dear Harry,

I surely was pleased to get a prompt answer to my letter. I think your children did so well in not missing school in such very severe weather. I am so pleased that they led their classes. I am mailing a package to them this afternoon.

I was out on 27th and
Olive Streets this morning.
It is so different from
what it used to be
it made me sick.

For twenty four years
or may be it was twenty.
Uncle Joe and Aunt
Billy lived at 2824
Olive. The yard was
large and beautiful.
The house is still stand-
ing and one poor old
tree is left. I didn't
go by it this morning -

I was there for five years going
to school.

We are having
the bath room painted and
papered and B. & C.'s room
papered and the floor re-
varnished. We are begin-
ning early, so we can get
the paper hanger without
waiting so long for him. Tues.

and yesterday I had a man
washing the ceilings & walls of
kitchen and pantry. He was a

wizard - & worked mar-
vels - the walls looked as
fresh as when first painted.

Uncle Harry hadn't any
vacation last year, and
I think he's the worse for it.
He isn't well. It got
cold so early & H. L. had
that new position &
they were re-modelling
the ice plant. So many
things to worry about.

You must put on weight -
drink lots of milk - eat
eggs. Cousin Best can't
drink milk & has to drink
