

4/9/45

Dear People,

If I get this letter finished neither Bob nor I will send any letters. That's the first time that's happened in ages. I wrote half Grant's message just a while ago.

What are the rebels going to do this time? They can't seem to make up their mind can they?

Bob is tickled pink that the watch is in fixin' condition. How long or rather how many months before it will be ready. He certainly needs a watch. He has some gulleys and is going to get some switches, for you Pop, they are doing no one any good at work & he thought you might put them to use in some way. I surely wish you'd come up some week Pop so you & Bob could go through all the junk shops & swap

joints there are around. I have
a terrible time getting him past
them. I don't know which
is worse he or Eddie. They both
go in a stupor when they see
one.

We went to Sarge Park Zoo.
took a quick look at the animals
& then climbed several hills,
got ourselves full of stickers
then came back. He saw
an old Baboon that could
smoke a cigarette. He struck the
match & everything, took a couple
of puffs on it, exhaled men,
then lit another one off the
first one. There were all kinds
of babies, cut hairs, one little
monkey, also a little porcupine.

I don't know which smelled
worse the animals to the mass
of humanity that were crowded
in the buildings.

Home to girl now -
How did your fingers ever
get Pop?
Love
B + B

P.S. Granddad just called +
said Uncle Ernie is here
- so were going to see them
tonite.

Friday.

Dear People

Just got back from being
fairly murdered. Had two teeth
filled, now my one relief
is, I don't have any carities.
If I just had two more filled
I wouldn't have any more
room for fillings. Guess they
will let out in another yr.
or so. Bob doesn't know it
but I made an appointment
for him for tomorrow, so I
guess will both be fixed up
& broke.

We went over to see Uncle
Shaver & Granddad shed. site.
Had a very nice time, we talked
& talked until nearly eleven.
Uncle Shaver said for you to
put a glass of milk in the
refrig. for him, but not to
kill a chicken 'cause it might
spoil before they get down again.
He wanted to know if that

pile of wood he chopped will
get used up.

Bob has put in for his
vacation around June 10th,
don't know if he'll get it or
not, just depends on when
the others take theirs. The Co.
offered them double pay for
the time they would take off
trying to get them to work -
Quite tempting, but Bob & I too
think the vacation would do
him more good than the money.
We are thinking of going
down to Aunt Luiza for a few
days but that is just an idea
I haven't written her as yet.
I have a bit of a headache
so will close for now.

Love

D. & B.

P.S. Will enclose the \$2. we've owed
you for quite some time. Express
or postage for sending some of
our stuff to Chi. - if you can
remember that for back. Sorry
were so late.

We are well, how are you
